Geography mystery

I'm in a small, very urban, island city-state in Southeast Asia, located between Malaysia and Indonesia. I have a total land area of 719.1 square kilometres and my border in diamond-shaped.

I have a tropical rainforest climate with no true distinct seasons although April is usually the hottest month. Lots of the vegetation that grew naturally here has been built on but there are still mangrove trees and long-tailed macaque monkeys.

Four official languages are spoken here: English, Mandarin Chinese, Malay, and Tamil. Lots of people here work in finance and trading.

[Can you work out where I am?](#)

If you are (or know of) a photographer who would be interested in working with us, please leave your details with Jayde by Friday 4th May. Thanks in advance .

From Thursday 3rd May, our Fitness Club will be changing to a Girls' football club. The club will run from 3:30-4:40 and is free. If you are interested in signing up, please speak to Jayde in the office.
