Year Five Scratch Coding

Year Five pupils have been getting getting to grips with creating their own computer games.

We've been using

Scratch software to code maze games. We've had to include complex algorithms and look out for bugs in our code! We even shared our games with Year Twos, to check they were bug-free! Our games will be on the school website later this week. To use Scratch at home, download it for free from <https://scratch.mit.edu/>
