

Do it right and you'll be bigh
Khalifa

My life is funny, sad maybe ok,
I have three sister eyes I've held a daughter
The best moments are the funny, crying and embarrassing ones

There are some pros and some cons

Neighbor I have good neighbors and hilarious friends,
My friendships will never end

I've got some trophies, medals too,

By the way this is for you

And for me too,

Anyway, this is for you (mostly) to know about my life

SO I forget your worries and your strife; Bare Necessities

Even though this is an extract Make sure you're in one of the best parts Not bland

Remember life is a test

Don't want hard and be your best
